Introduction To Metaverse

The Metaverse is rapidly emerging as a new frontier of the digital world, offering infinite possibilities for commerce, entertainment and social interaction. The concept of the Metaverse has captivated the imagination of people for decades, and it's now becoming a reality than ever before. It is a decentralized virtual world that aims to create a new dimension of reality, where users can interact, transact and create in a shared environment. At the core of this new world is a digital currency referred to as the Metaverse coin. The Metaverse coin is designed to be the cornerstone of the Metaverse ecosystem, highly flexible, adaptable, providing the necessary infrastructure for secure transactions, be scalable and enable seamless interactions between users as the growth of the ecosystem evolves. To fuel this new economy, we present CRYPTOFY COIN – the coin that connects the world with the metaverse.

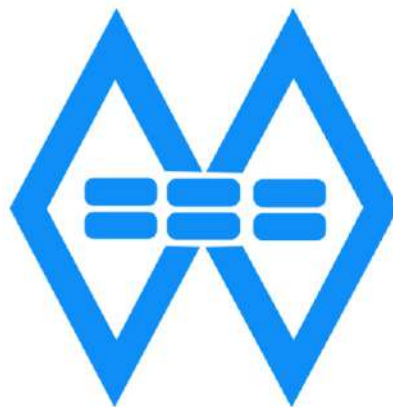

Cryptofy Digital White Paper

Cryptofy Coin(CFYC)

Part One

Cryptofy Digital
White Paper

CRYPTOFY COIN (CFYC) is a decentralized metaverse coin, that bridges the gap between the virtual world and the real world, by aiding seamless, secured and fast transactions. It's very economical and has fast processing power per seconds powered by the CRYPTOFY SMART CHAIN (CSC). CFY is a metaverse coin of CRYPTOFY DIGITAL ECOSYSTEM, a blockchain company that offers cryptocurrency and blockchain services to clients around the globe.

Cryptofy Digital Logo

Cryptofy Digital Ecosystem

Part Two

The CRYPTOFY DIGITAL ECOSYSTEM is a utility cum community-driven ecosystem that aims to bring its users to the forefront of blockchain technology through its applications:

1. CRYPTOFY GAME (Play, learn and earn, that is, GAMEFI)
2. CRYPTOFY DeFi Wallet
3. CRYPTOFY METaverse NFTs/ Marketplace
4. CRYPTOFY MUSIC STREAMS
5. CRYPTOFY BLOCKCHAIN
6. CRYPTOFY ONLINE UNIVERSITY – crypto education and adoption

Join us on our journey to the cutting edge of blockchain technology and be part of the future.

Aims And Objectives

Part Three

1. To bridge the gaps associated with digital transactions across the globe.
2. Using the blockchain technology as a means of assisting job seekers and recruiters without being spammed or scammed of their time and resources.
3. To ensure secured transactions across all our channels using Zeroless Fintech.
4. To drive the knowledge and use of blockchain technology and cryptocurrencies to all parts of the world especially remote villages.
5. To ensure the adoption of crypto trading and easy access to cryptos in many sectors of the economy.

CRYPTOFY HEALTH

At CRYPTOFY DIGITAL, we aim to revolutionize the use of blockchain technology in the healthcare sector by enhancing data security, privacy and interoperability.

MODE OF OPERATION (MODUS OPERANDI)

- Δ Secure storage and easy access to Electronic Medical Records (EMR) for patients.
- Δ Verifying and tracking Clinical Trials data for increased transparency.
- Δ Implementing a Supply Chain Management system using blockchain to track the journey of pharmaceutical products from manufacturer to patient, helping prevent counterfeiting and improving supply chain transparency.
- Δ Using blockchain technology to securely encrypt and share genetic information, enabling the advancement of personalized medicine.

We at CRYPTOFY strive to eliminate data loss and ensure that patients' medical records are accessible to authorized healthcare providers worldwide. The data will be securely encrypted and only released with the patients' consent.

Our goal is to simplify medical record keeping through the use of CRYPTOFY and blockchain technology, reducing the need for minimizing the risk of records being lost or discarded. We are determined to make a positive impact on the healthcare industry through the use of the blockchain technology.

CRYPTOFY JOBS

With the aid of our platform, jobseekers can access varieties of job descriptions according to their skills, professions, level of education and or experience. We'll do our best to minimize the rigorous unimportant processes associated with accessing job opportunities by granting direct access to recruiters. NO SPAMS, NO ANNOYING SURVEYS. NO SCAM. This unique site can ONLY be accessed by users that hold CRYPTOFY COIN(CFYC).

CRYPTOFY RECRUITS

Most times, it's difficult for recruiters to access real jobseekers due to the scams associated with the use of social media in recruits. At Cryptofy digital, we'll ensure that those that bring /upload job opportunities to our site are real and no third-party sites involved. This we hope to achieve by leveraging on the weaknesses of other recruit sites. With the aid of our tech crew, recruiter will be held accountable via their CFYC wallets. Interviews and subsequent promotion of employees will be carried by the recruiters on a successful job offered. We aim to stop/mitigate scams that comes with job recruiting and employment.

Other use cases are from our partnership with many good projects such as:

- Δ IVENDPAY: To provide crypto Point of Sale (POS) machines to our subscribers.
- Δ ZEROLOSS FINANCE: For Payment Integration.
- Δ FAVOOM: A social media site that has unique feature of having a crypto wallet.
- Δ WNDO: It's an E-store owned by COINBASE where purchases are made with cryptos.
- Δ NEXT.EXCHANGE
- Δ CRYSTAL ENERGY
- Δ ALBMER ENERGY
- Δ CRYPTOPALACE
- Δ BRAINS DAO

Applications Driven By Cryptofy Digital Ecosystem

Part Five

CRYPTOFY GAME:

is a play-learn-earn game that is built on Cryptofy ecosystem. Gamers across the globe want to have fun while playing their game and this is what we bring to you. On the CRYPTOFY gaming platform, players are expected to crush some stable coins or altcoins, watch videos and provide answers to trivia quizzes made available by the gaming algorithm. A typical understanding of this game is the Candy Crush game that attracted millions of gamers that crushed candies and earned rewards after each level. For CFY game, the players get rewarded with CFY coins. In addition to this, it gets more interesting and difficult as every player advance in levels. For now, the game is compatible on ANDROID devices ONLY. Further plans will onboard gamers using IOS Device's and PC'S.

STEPS ON HOW TO GET ON THE GAME;

- Δ On your android mobile phone, go to “PLAYSTORE”.
- Δ Download the “CRYPTOFY GAME” and register with your gmail.

CRYPTOFY DEFI WALLET:

aims to make cryptocurrency more accessible for everyone by enabling users to buy, send, receive, stake, trade and store digital assets. It's a non-custodial wallet that allows users to retain control of their private keys and digital assets, including cryptocurrencies and NFTs. Users MUST keep their private keys safe and in the correct order for backup purposes. Currently, the CFYC is available on a decentralized exchange wallet called Trustwallet.

CRYPTOFY METAVERSE NFTs/MARKETPLACE

will have our NFTs and we'll have them sold on the marketplace just like we have on OpenSea and other NFT marketplaces. These NFTs will have utilities /use cases. A royalty NFT, not ones that will be only good for flips, but will have 1:1 value. Rarity is one of the attributes of a good NFT and this is what we are bringing to the market. This is a future plan.

CRYPTOFY MUSIC STREAMS:

is designed for promotions and purchases of all genres of music and the artists just like we have on Apple music, Spotify etc. This will be sorted in alphabetical order, top trending, hip-hops, raps, blues e.t.c and purchases on the platform will be made with CRYPTO FY COIN.

CRYPTOFY BLOCKCHAIN:

is the blockchain technology of the Cryptofy digital ecosystem. It's a decentralized system that is used to record the transactions carried out on the Cryptofy Digital ecosystem especially ones done with its native token- CRYPTO FY COIN (\$CFYC).

CRYPTOFY ONLINE UNIVERSITY:

is an application designed to drive the adoption and the evangelism of the use of the blockchain technology and cryptocurrencies across the globe. With our team of elites that has in-depth knowledge and vast experiences in different areas of the blockchain, we will onboard, tutor and mentor younger generations on the topics related to the ever innovative cryptosphere.

Token Distribution/Tokenomics Of Cryptofy Digital Ecosystem

For CRYPTOFY COIN, the total supply is 250 million CFYC. For the Private sale, 8% of the total supply will be sold. For every investor that took part in the private sale, 90% of their investment will be auto-locked for 365 days and ONLY 10% will be available for withdrawal. This is to ensure the longevity of the project and maintain stability on the LIQUIDITY POOL.

For liquidity pool farming, 15-30 days but in a case where an investor is impatient, taxation for emergency withdrawal is 8% of his total investment.

Tokenomics:

10% Operations, 32 months vesting, 12 months cliff.

15% Developments, 60 months vestings, 12 months cliff.

10% Marketing, 48 months, 12 months cliff.

10% General Reserve, 60 months, 12 months cliff.

10% Seed

8% Sale

2% Airdrop

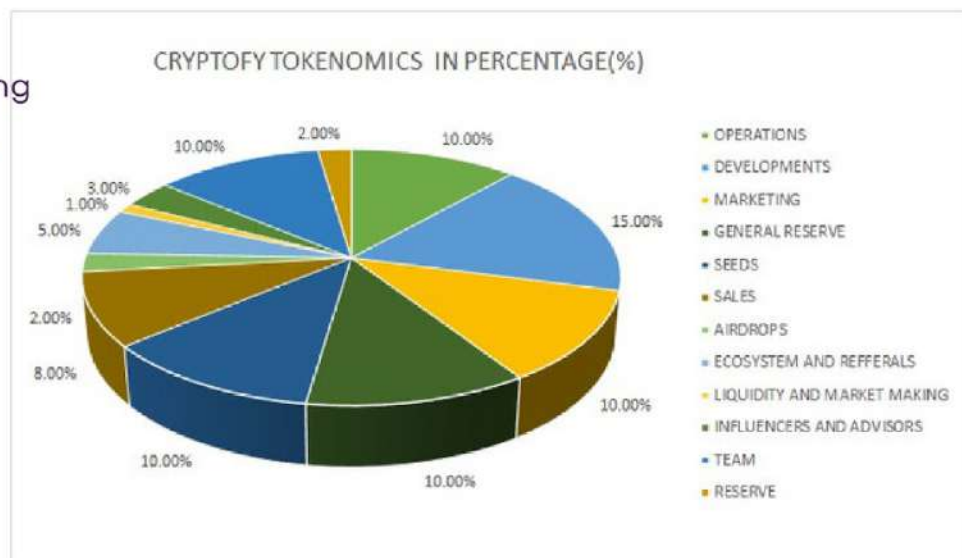

5% Ecosystem & Referrals

10% Liquidity & Market Making

3% Influencers and Advisors

10% Team

2% Reserve

LEGENDS
MOV= MONTHS OF VEST
MOC= MONTHS OF CLIFF

COSMIC ROUTE OF CRYPTOFY DIGITAL ECOSYSTEM

Part Seven

LEVEL 1:

- Δ Introducing CRYPTOFY Digital Ecosystem to the world.
- Δ Setting up the teams and reaching out to Top investors.
- Δ Setting up social media handles for our community (Website, Twitter, Telegram, Instagram and Whatsapp)
